**Browser-based Models with  
TensorFlow.js**

**Device-based Models with  
TensorFlow Lite**

**Data Pipelines with  
TensorFlow Data Services**

**Advanced Deployment  
Scenarios with TensorFlow**

May 12, 2024

## RHEYHAN FAHRY

has successfully completed the online, non-credit Specialization

# TensorFlow: Data and Deployment

In this specialization, you continued to develop your understanding of machine learning with TensorFlow: Data and Deployment. You have gone beyond basic modeling and learned how to train and run your models within a browser, optimize machine learning models for mobile devices, and create effective data pipelines with TensorFlow Data Services. Now that you've learned the various ways to deploy your models, you're well-prepared to take your models into the hands of real people on all kinds of devices!
